# "NTHP STUDENT FACILITATOR" DEVELOPED BY AN NTHP SCHOLAR OF BATCH 2010

NTHP Student Facilitator is a Social Entrepreneurship website that aims to aid online learning and test preparation for aspiring NTHP Program candidates. (http://nthpstudentfaclitator.com). The project was supervised by Mr. Ali Hashmi.

The website aims to help the students of National Talent Hunt Program to search useful content online like:

1. Online Quizzes of English, Mathematics based on the IBA Test Pattern
2. Past Paper of the NTHP Assessment Test
3. Past Paper of the IBA Aptitude Test (BBA/ BS Programs)
4. Useful Books related to the Test preparation like SAT Level-I & II, GRE English , Presentation & Communication Skills related books
5. Online Forum

Though designed primarily for NTHP students aiming to get admission in IBA, the website (like www.coursera.org) will have global reach and aims to attract students with access to the internet from all over Pakistan. Finding the right content for preparation is a major problem faced by these students. Our focus is to provide students with content that will guarantee a good learning and understanding of the entry test paper. This idea is also an inspiration of some of the E-learning websites of the leading universities of the world such as http://ocw.mit.edu/index.htm , http://www.apple.com/education/it/.

The NTHP Student Facilitator was designed and develop by Lubna Shamsher Khan; student of BS(CS) an NTHP Scholar Batch 2010 and Sundas Alvi, Student of BS(CS) program.

The **Coordinator – Dr. Zeenat Ismail**, encouraged the students for their valuable contribution in the NTHP Program which will help the new NTHP students to prepare & use the NTHP Student Facilitator website for the preparation purpose.
